

# X45 M35 Basic

Art. No. 80.50.103

## Waste separation system for pre-existing rails

The X45 M35 Basic waste system is the narrowest X-LINE set with a reduced height. Its main container and Basic drawer therefore have space in almost every kitchen cupboard. Thanks to the X-LINE clamping fingers, an official 35-litre refuse sack (subject to fee) can be filled to the brim despite reduced height. The sturdy Basic drawer provides additional storage capacity where space is limited.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Basic drawer as additional storage space.
