

X60 M5 Premium

Art. No. 80.50.404

Waste separation system for pre-existing rails

This waste system is the premium model for cabinets with a width of 600 mm and lower drawer height. In addition to the 35 litre main container, six separate containers are included. This enables uncomplicated everyday separation of recyclable materials directly in the kitchen. The containers of different sizes can be used and positioned in various ways, so that every household can adapt the system to its own needs. Thanks to the container-in-container principle, all bins are easily accessible. The premium drawer provides additional storage space, and the two add-on trays ensure additional order in the kitchen cabinet.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Up to seven recycling possibilities.
- ▶ More order and convenience. Two add-on trays on a ball-bearing drawer with full extension.
