

X55 M7 Basic

Art. No. 80.50.307

Waste separation system for pre-existing rails

In addition to the main bin, the X-LINE set offers an 11.5-litre additional bin for households that need still more space for recycling or storage. The extra-large additional bin is specially designed for households that prefer a single additional bin with more storage space. The reduced height makes this set suitable for kitchens with low drawer chests. With its 35-litre capacity, the main bin of this X-LINE version for cabinet widths of 550 mm provides optimal space for the waste bag. The basic drawer included provides further storage space.

- ▶ X-LINE waste system for 550 mm cabinet width and low drawer chests.
- ▶ Extra large 11.5-litre additional bin for more recycling and storage space .
- ▶ 35-litre main bin with movable clamps for easier bag clamping and fuller waste bags.
- ▶ Basic drawer for additional storage space.
