

X55 M7 Premium

Art. No. 80.50.308

Waste separation system for pre-existing rails

This set offers all the advantages of the X-LINE for low drawer chests. Designed for a cabinet width of 550 mm, it excels not only with its unique X-LINE features, but also with the extra-large additional bin. This combines the small bins of the original X-LINE design to form a new 16-litre bin. The result is abundant space for recyclable materials or cleaning utensils. Like all X-LINE products, this set also includes the main waste bag bin. The system is completed by a premium drawer with full extension.

- ▶ X-LINE waste system for 550 mm cabinet width and low height drawer chests.
- ▶ Extra large 11.5-litre additional bin for more recycling and storage space.
- ▶ 35-litre main bin with movable clamps for easier bag clamping and fuller waste bags.
- ▶ Premium drawer with full extension and two additional trays for even greater tidiness.
