

X60 M7 Premium

Art. No. 80.50.408

Waste separation system for pre-existing rails

This model for cabinets with a width of 600 mm, and specially designed for lower kitchen base units, excels with a particularly large additional bin. The 16-litre dust bin is ideal for households that need more space for individual recyclables or cleaning utensils. The 16-litre bin can hold larger quantities of organic waste, recyclables or cleaning utensils. The set is completed with a 40-litre main bin for the refuse bag, and the X-LINE premium drawer. In addition to full extension, this version of the drawer has two additional trays for more order and convenience.

- ▶ X-LINE waste system for 600 mm cabinet width and lower kitchen base units.
- ▶ 16-litre additional bin for larger recyclables and voluminous cleaning utensils.
- ▶ 35-litre main bin with patented bag tensioners for easier clamping and fuller waste bags.
- ▶ Premium drawer with full extension and two additional trays as storage surface.
