

X60 M17 Basic

Art. No. 80.50.409

Waste separation system for pre-existing rails

This X-LINE version is suitable for households that prefer to collect their waste in 17-litre waste bags. Single or small households, waste avoiders and companies with seminar rooms can usefully collect smaller quantities of waste in the 20-litre main bin. In addition, recyclables can be collected or cleaning utensils can be stored in the two 10-litre additional bins. This model is designed for cabinets with a width of 600 mm and a lower installation height. The set is supplemented with a basic drawer that provides additional storage space above the waste system.

- ▶ X-LINE waste system for 600 mm carcass width and lower kitchen base units.
- ▶ 20-litre main bin for optimum collection of smaller waste quantities in 17-litre waste bags.
- ▶ Two 10-litre additional bins for various recyclables or as additional storage space for cleaning utensils.
- ▶ Basic drawer with additional shelf space.
