

X50 M35 Basic

Art. No. 80.50.203

Waste separation system for pre-existing rails

Thanks to its well thought-out design, this set fits into lower base units without having to sacrifice convenience in waste disposal. The main container with a capacity of 35 litres and the supplementary Basic drawer are designed for cabinets 500 mm wide. This model thus offers additional storage space for cleaning utensils next to the waste bin.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Basic drawer as additional storage space.
