

Waste separation container X40 M17

Art. No. 80.51.001

System for pre-existing rails

This bin combination is designed for particularly tight spaces. The extra-small system was developed for cabinets with a width of only 400 mm. This makes the bin combination ideal for narrow installation spaces, small kitchens and small amounts of household waste. The compact set with its 20-litre main bin has enough space for a 17-litre waste bag.
