

# X60 L5 Premium

Art. No. 80.50.402

## Waste separation system for pre-existing rails

This premium model for a kitchen cabinet width of 600 millimetres is the Rolls-Royce of our new X-LINE. Over 18 litres of storage space are available apart from the 40-litre main container. The six additional containers allow the individual collection of various smaller recycling items and also offer sufficient storage space for kitchen utensils such as dishwasher tablets. Thanks to the container-in-container principle, all containers are easily accessible despite their space-saving design. The premium drawer with full-extension runner additionally expands the storage space and shelf area. The two add-on trays also nip any form of clutter directly in the bud.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fills refuse bags to the brim. Switzerland's official 35 or 17 litre bags are fully utilized.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Up to seven recycling possibilities, and 31% more storage space than comparable systems.
- ▶ More order and convenience. Two add-on trays on a ball-bearing drawer with full extension.
