## Freestanding waste container for house, office and garden

The Waste BOXX can be placed wherever you need it. In the freestanding waste system there is room for a 60-litre rubbish bag. Its handling is incomparably practical thanks to sophisticated technology. The swivel lid with counterweight closes automatically when smaller waste items are disposed of using the push function. The lid can be lifted with the pull function for larger waste items or when the bin liner is already full. There is also a small hook on the side of the container to which a brush set can be attached.

- ▶ Flexible usage wherever a waste bin is needed
- ▶ Freestanding waste system for garage, terrace or office use
- ▶ Container for one 60-litre waste bag
- ▶ Push/pull function for lightning-fast and easy waste disposal
