

# X55 M5 Basic

Art. No. 80.50.303

## Waste separation system for pre-existing rails

This set has been designed for households with lower drawer chests while still retaining an integrated option for separating and storing goods. The two additional containers, each with a volume of 4 litres, offer space for collecting organic waste or storing dishwasher tablets, for example. The 35-litre main container is ideal for standard official waste bags. The entire set is designed for a cabinet width of 550 mm and includes the basic drawer as additional storage space.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Basic drawer as additional storage space.
