

X50 L35 Basic

Art. No. 80.50.201

Waste separation system for pre-existing rails

This set for cabinets 500 mm wide is impressively elegant. The main container with a capacity of 40 litres is ideal for the official 35 litre bags. The set is complemented with the X-LINE Basic drawer in which kitchen sponges can be stored, for example. The X50 L35 Basic waste system is ideal if you do not want to do without elegant waste disposal despite less space under the sink.

- ▶ Easier waste bag clamping with four movable bag clamps.
- ▶ Fills refuse bags to the brim. Switzerland's official 35 or 17 litre bags are fully utilized.
- ▶ Fits all standard drawer chests with a depth of 400-500 mm, thanks to the adjustable ratchet system.
- ▶ Basic drawer as additional storage space.
